## 2- Large Cutter Kit - Gate Cutters

The large cutter kit contains a collection of 6" to 8" overall length cutter, with a max tip opening of 1-1/8". These cutters are designed to cut large or high density/ glass filled sprues. Also included in the kit are 3 different force multiplying cutters which utilize a cam action hinged to reduce the required hand force by up to 50% over the standard hinge design. Once you try these you be amazed at the difference.

## 8- Bronze Sprue Puller Kit

Our USA made bronze alloy sprue pullers are ideal for removing sprues and parts without damaging the mold surface. Each tool has a longer double ergonomic handle for higher leverage with less hand force. These high quality tools also include thermal insulated soft touch grips to reduce fatigue. Once you get one, you'll never want to be without it.
