

NOTE: Drawing depicts below-flush mounting. Disregard dimensions marked with * for surface mounting.

Where space or mold handling and storage requirements do not permit the use of Terminal Mounting Boxes, the connectors can be below-flush or surface mounted. See drawings below and page 30 for dimensions.

Below-Flush and Surface Mounting of Mold Power Input Connectors (15 AMP)

Typical for: PIC-5-G
PIC-8-G
PIC-12-G
